THREE PERSONS DROWNED WHEN TOWBOAT OVERTURNS

Henry A. Laughlin Lifted From Water by Wind

ONE BODY IS RECOVERED

Still Searching for Fireman and Chambermaid Who Lost Their Lives

Caught in the terrific windstorm which raged last night at about 11:30 o'clock, the towing steamer Henry A. Laughlin, of the Jones and Laughlin fleet, with a tow of empty barges, capsized in the river at Allenport and two women and a fireman were drowned. Others of the crew of 14 including the captain, Thomas Cocain of North Charleroi, had narrow escapes, and would have been drowned had it not been for the timely arrival and heroic work of the steamers Braddock and Twilight which were nearby when the accident happened. One body, that of Effie Hughes, has been recovered. Those who were drowned were:

Effie Hughes, aged 45 of Wyona, W. Va.; employed on boat as a cook.

Katherine Lawrence, aged 32 of Hazelwood; employed on boat as chambermaid.

Raymond McFadden, of Hazelwood; about 26 years old, a fireman.

The Henry A. Laughlin had been working in the vicinity of Pool No. 4, near the Vesta mines of the Jones and Laughlin company, all day yesterday. Last evening it was on its way to the mines when the accident occurred.

The Henry A. Laughlin passed through Lock No. 4 at 9:45, and the crew waved at the watchman. She was going at a rapid rate in the middle of the river at 11:30, when suddenly a terrific gust of wind lifted the boat about ten feet from the water's surface, then turned her completely around. She settled down in the water, her smokestacks embedded in the sandy bottom of the river.

Members of the crew swam for their lives or else clung to barrels and pieces of timber floating about, while the crew of the Braddock and the Twilight hastened to the rescue. Captain Cocain and the mate caught hold of a barrel and floated to the wheel of the wrecked steamer where they hung on until aid came.

The body of Miss Hughes was found this morning at about 9 o'clock. Search for the bodies of the other two continues unabated.

Many of the crew from the vicinity of Charleroi. Among those who live near here are George Jacobs and William Gebo of North Charleroi and Joseph Robins of Elizabeth.

Will Dispose of School Building

Frame Structure at North Charleroi to be Sold at Auction

Saturday afternoon disposition of the present North Charleroi frame school building will be made at public auction, as one of the first moves to get the premises ready for work to begin on the construction of the new eight-room school building immediately after the close of school.

The purchaser of the structure will be given ten days following the close of the school term to have the building moved, and immediately thereafter the contractors will begin work.

School will close on April 25, North Charleroi having only an eight months' term. On April 24 the contract for building will be warded. Bids were advertised for some time ago, and already it is stated there has been a hearty response on the part of contractors and builders. It is expected that there will be fully a dozen bids entered.

IMPORTANT SCHOOL YEAR

School Board Will Hold Election of Superintendent

This will be an important school year for Charleroi as during this period will occur the election of a superintendent of schools. The school board last evening held a meeting and the secretary was instructed to issue the legal notice of election to be held the first Thursday in May.

The first superintendent of the Charleroi schools was Prof. W. D. Wright, who was elected three years ago. After one term in the office he resigned to go west, and Prof. J. G. Pentz, the present incumbent, was elected. This year's election of a superintendent will be the second in the history of the schools.

President J. M. Hill was in the chair last night and members of the board present were Ira L. Nickeson, George B. Nealon, Charles Wallgren and Dr T. M. Faddis. D. H Glunt was absent.

A number of bills were ordered paid and reports were accepted. Superintendent J. G. Pentz made a report of the condition of the schools for the seventh month which closed March 29. The enrollment is 2,066. During the month 2,560 visits were made to the schools.

The president and secretary were authorized to sign the application of Miss Maybelle King for a permanent certificate.

It was decided upon motion that all pupils up to the seventh and eighth grades be required to leave the various buildings not later is the evening than 4 o'clock. Some annoyance has been caused by the children playing around the premises.

Miss Rosetta Rodgers was elected teacher of room No. 3 of the Fifth street building.

BUSINESS MEN'S MEETING

Any promoter of a stock concern who comes to town and attempts to sell stock of any kind of enterprises will have to have good backing and be able to prove it hereafter, if he expects to do business here. Last night at the meeting of the Charleroi Business Men's Association a committee consisting of R. H. Rush, E. W. Hastings and George S. Might was appointed as an "investigating committee," whose duty it will be to investigate all such concerns and stop all confidence games.

T. P. Sloan reported that progress was being made by the committee to secure rights of ways for trolley line connecting Charleroi and Bentleyville. A letter was read from Hugh E. Fergus, Esq., of the free bridge committee reporting some progress. Both committees were continued.

There was a good turnout at the meeting and one new member was received. Following the business session a Dutch lunch was served by the social committee and Walter Byerly was toastmaster. Several good talks were made.

MISSIONARY TALKS GIVEN

Washington Avenue Society Holds Interesting Meeting

The Ladies Missionary society of the Washington Avenue Presbyterian church held their meeting in the church yesterday afternoon. The meeting was attended by about 40 of the ladies, and was one of the most instructive and enjoyable affairs of the season. The whole program as carried out was emblematic of Easter time. The church was beautifully decorated with Easter flowers. Mrs. I. L. Nickeson led the devotional exercise, taking for her subject, "The Risen Christ." Her talk was very impressive.

After singing an Easter hymn, the leader, Mrs. F. C. Stahlman, and her assistants, Mrs. N. W. Patton and Mrs. S. L. Woodward taking as their subject, "General Informa ion," preceded to explain to the society the work of the different board of the missionary society of the Presbyterian church. Mrs. Stahlman's talk was illustrated by maps and drawings.

Mrs. Ritenour of Uniontown, the State President of the W. C. T. U., was present and made quite a lengthy address in the interest of that society, after which the hostesses, Mrs. H. F. Lowsttuter, Mrs. J. W. Manon and Mrs. Chas. Culler served a dainty lunch consisting of coffee, ice cream and cake, representing a nest containing Easter eggs over which was perched a tiny chicken. Every one went home feeling they had spent a profitable and an enjoyable afternoon.

These were handsomely decorated plates, bearing a reproduction of the State capitol at Harrisbug, and incidentally 3,000 plates and other survenirs were given out.

ULTIMATUM ON MONDAY

Brewery Workers Return to Duties for Time Being

Brewery workers employed at seven breweries of this vicinity are back at work this morning after being on strike two days, and will remain on duty until Monday at least subject to a decision to be reached then by Pittsburg officials. A meeting was held yesterday afternoon by the members of the local here, and action was taken that they return to work.

Breweries affected by the temporary strike were the Charleroi, the Moose at Roscoe, the Monessen, the Donora, the Acme at Bentleyvile, the Roth and the Globe at Monongahela. It is thought that a compromise can be effected between the workers and employers.

STATE OFFICIALS TO AID

Wire and Nail Plants in Several Towns to be Put in Operation

Orders have been issued to place the wire and nail mills in Donora, Bradduck, Rankin, Monessen and Aliquippa on full turn and it is stated the plants will start under the new order next week. The plants have not been running steadily during the past several months, and thousand of men have been out of employment by reason of the partials suspension. These will all be put back in steady employment.

Will Either Send Man Here or Direct Work From Department Headquarters

It is probable that the State Board of Health will shortly establish a strict quarantine on dogs in this entire region as a result of a serious outbreak of rabies at Monessen, which has already resulted in the death of one boy. The State Health Department has asked for a boundary where it is desired to establish a quarantine and this boundary has been set by the board of health and council of Monessen to include territory north to the Turkey Hollow road, south to and including Belle Vernon, North Belle Vernon, Pricedale, Charleroi and North Charleroi.

Monday of this week a meeting of the Monessen board of helth, council and other organizations of the town was held and all discussed the matter. On the Saturday previous a boy had died indirectly as the result of being bit by a mad dog, and there are a number of persons taking the Pasteur treatment at Pittsburg for rabies.

It is said that a dog which had been bitten several days ago was brought to Charleroi by the owner to escape from the Monessen officers, and that is why Charleroi is included in the territory. Local authorities will be communicated with in regard to the matter.

Whether the State Department of Health will send a man here to institute the quarantine or issue directions from their department at Harrisburg is not known. The Monessen board of health this morning telergaphed the boundary lines whch they thought it would be wise to include.

THREATENS GUN PLAY

Baby is Innocent Cause of Much Family Trouble

Frank Saintenoy, a Frenchman, will have to answer in court to the chargeof felonious assault and battery, as a result of an affair in which he participated at the home of his brother-in-law, August Consteuns, at Eighth street and Crest avenue yesterday.

Saintenoy has been sick for some time. He has been talking treatment under a Pittsburg physician and was staying at the home of his brother-in-law while his wife and little baby, it is said, were living at their home on Lincoln avenue. It seems that the Consteuns adopted the baby and that Saintenoy wasn't satisfied. Yesterday he came home from Pittsburg and stopped at his house on Lincoln avenue, then went to the home of his brother-in-law and demanded that the child, which is about a year old, be returned to him. His request was refused. Enraged by immediate developments, Saintenoy pulled a gun and said somebody was going to die, or he was going to have the baby. He pulled the trigger four times, but for some reason the gun didn't shoot, whereupon, it is stated, he started beating Consteuns over the head with it, then turned upon Mrs. Consteuns. The commotion caused the arrival of passersby and Saintenoy was held until the arrival of Chief of Police C. W. Albright and Patrolman McEldowney.

Last night the Consteuns made information against Saintenoy before Justice of the Peace John Jenkins, and at a hearing he was held for court, which is not yet furnished, being set at $2,000.

The Dangerous Dog

The proposition to include Charleroi and this community in a quarantine against the possible ravages of mad dogs should be considered at once by the borough officials. With one death atMonessen from the effects of rabies, several other patients taking the Pasteur treatment, and forty or fifty dogs that have been bitten by another dog known to be affected with rabies, it is high time that the officials took drastic action to protect the community. This is particularly urgent, in view of the fact that one of the dogs bitten at Monessen is said to have been taken to Charleroi to protect it from the officials.

In pioneer times a flock of fifty wolves roaming at large in Rostraver township across the river would have aroused the whole western end of the State to action. Today fifty dogs likely to become affected with rabies are a thousand times more menacing. Practially thirty thousand people on both sides of the river are exposed to the danger with the possibility of a swift and horrible death Charleroi officials and people should co-operate promptly and at once with the State officials in quarantining all the dogs in the community. Indifference in this respect is criminal carelessness of the first degree.

PICKED UP IN PASSING

One of the census enumerators in McKeesport who was in town a day or two ago tells a story about his experience while taking the census last summer. At one of the houses he entered he asked where a certain man was living.

"Let's see," responded the woman of the house thoughtfully. "He lives in the fourteenth—fifteenth—no, the eighteenth house this side of the railroad tracks."

"Funny thing happened down at the Hotel Henry in Pittsburg the other day," said a traveling man in Charleroi last evening. "I was in the office talking to the clerk, when a woman—a guest of the house—telephoned down that she wanted what the clerk understood to be four porters. As some of this strong arm help was off duty the clerk had to rustle around before he found the required number, but he finally marshalled them, four husky negroes, and sent them up, thinking that the woman wanted to move a piano or some of the furniture.

"A few minutes latter and the quartet appeared before the desk grinning.

"'She done want no po'tahs, boss,' said the leader She wants foh quahtahs foh a dollah bill, so's she can give the chambahmaid a tip.'"

The attendance at Prof. H. D. Patton's address last night was not large but all were treated to a new line of thought in reform. The speaker dwelt on the philosophy of reform in general, showing that the prohibition movement is sweeping on—that its results will be as deep as the wants of the human soul and its sweep as wide as the nation, its continuity as lasting as generations unborn. The address was wholly different from the usual temperance address

OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's

Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines." —Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases.

HOW TO AVOID SHOES THAT HURT

The Wonderful ease of the Red Cross Shoe

Shoe Manufacturers everywhere trying to get the effect

This Spring, you won't have to buy shoes that will require weeks of "breaking in."

You won't have to risk shoes that may never be comfortable.

J. J. Beerens of Charleroi has explained to us why the Red Cross Shoe has solved this problem for so many women and why you can have your shoe fashionable and yet absolutely comfortable the first time you wear them.

First of all, know why shoes hurt.

95 out of every 100 cases can be traced directly to stiff soles.

If you could look inside of your shoe with your foot in it, you would see why.

Your foot bends, but the sole of your shoe bends scarcely at all.

At every step you take, the ball of your foot, bearing the entire weight of your body, rubs against this stiff sole. This is what makes hard, callous places, is what causes smarting, burning feet.

IMITATIONS.

No patent device, no inner sole of any kind put inside of your shoe, can remove the cause of your suffering.

Cushion soles make the feet prespire; this leaves them tender and sensitive without bringing relief.

The sole of the Red Cross Shoe is tanned by a special process. This preserves all the natural life and elasticity of the leather.

It bends with your foot, follows its every movement, as a glove moves with your hand.

Until you walk in it, you can not realize how easy and comfortable the Red Cross Shoe really is.

Its restful feeling is a delight after the aching and smarting that stiff soles cause.

Women are learning to avoid "make shifts" and are demanding the genuine Red Cross Shoe.

Especially since in the Red Cross Shoe, Mr. Beerens is able to secure such attractive models in such a wide range of styles.

You will find they are interesting display—all of the new Spring Styles are on exhibit now.

CHARTER NOTICE

Notice is hereby given that an application will be made to the Court of Common Pleas of Washington County, Pennsylvania, at 10:00 o'clock A. M. on Monday, the 17th day of April, 1911, by James J. Hott, Kerfoot W. Daly and Walter Byerly and others, under the act of Assembly entitled "An act to provide for the incorporation and regulation of certain corporations," approved April 29, 1874, and the supplements thereto, for the charter of an intended coporation to be called MONONGAHELA VALLEY AUTOMOBILE CLUB, the character and object of which is "promotion of the interests of automobile owners, drivers, manufactures and dealers," and for these purposes to have, possess and enjoy all the rights, benefits and privileges of said act of Assembly and the supplements thereto. A copy of said application is on file in the office of the Prothontary of said Court.

Ancient Spectacle Makers.

The ancient Guild of Spectacle Makers is numerically one of the strongest London companies. Its charter dates from the year 1629 and, though the exact date of its origin is lost, there is ample evidence that the calling of spectacle maker was extensively followed at a very early date. An old book of 1563 mentions the spectacle makers among other traders, and the biography of Carlo Zeno, an illustrious Venetian, who died in 1418, mentions that even at the age of eighty-four he needed no artificial aids to his sight So presumably spectacles were common in Italy five centuries ago.—London Telegraph.

A Venetian Fashion.

Fashions were no less eccentric four centuries ago than they are today. "Before the streets of Venice were paved (in the thirteenth century)," says Mr. William Boulting in "Woman in Italy," "ladies went though the mud and filth on pattens. The custom was retained, and, in spite of sumptuary laws the patten became heightened until women of rank stood on false feet half a yard high in the sixteenth century. They were unable to walk without the support of one or two gentlemen or servants."

A curiosity in banquets is mentioned by the same writer. It was a wedding feast at Milan and consisted of fifteen courses, "each being introduced by living specimens of the animals that composed it."

The English Complexion

The complexions of the English have often been exploited for our benefit. The damp climate and the exercise out of doors produce the red, they say. But on examination it proves to be not the red of the rose, but the red of raw beef, and often streaky and fibrous at that. The features are large and the face high colored, but it is not a delicate pink. It is a coarse red. At a distance the effect is charming, bright, refreshing, but close to often rather unpleasant. Here the features of the women, even the features of the beautiful women, are molded, while the features of our beautiful American women are chiseled.—Scribner's.

Japan's National Beverage.

Sake is the national beverage of Japan. It has a peculiar flavor not comparable to any European drink, is made from fermented rice by an intricate process in winter time and contains from 11 to 14 per cent of alcohol. It is a necessary constituent of every ceremonial Japanese dinner, is served in little, ampulla-like jars and drunk with much formality from squat, e less sake cups containing approximately about two ounces. To the Europe palate it tastes sour at first, but preference for it is readily acquire Curiously enough, it has a much mor powerful effect on the Japanese tha on Europeans. A stronger variety, shochu, contains from 20 to 50 per cent of alcohol. Another form, mirin, is more or less a liqueuer.—London Lancet.

The Dangerous Dog

The proposition to include Charleroi and this community in a quarantine against the possible ravages of mad dogs should be considered at once by the borough officials. With one death atMonessen from the effects of rabies, several other patients taking the Pasteur treatment, and forty or fifty dogs that have been bitten by another dog known to be affected with rabies, it is high time that the officials took drastic action to protect the community. This is particularly urgent, in view of the fact that one of the dogs bitten at Monessen is said to have been taken to Charleroi to protect it from the officials.

In pioneer times a flock of fifty wolves roaming at large in Rostraver township across the river would have aroused the whole western end of the State to action. Today fifty dogs likely to become affected with rabies are a thousand times more menacing. Practially thirty thousand people on both sides of the river are exposed to the danger with the possibility of a swift and horrible death Charleroi officials and people should co-operate promptly and at once with the State officials in quarantining all the dogs in the community. Indifference in this respect is criminal carelessness of the first degree.

PICKED UP IN PASSING

One of the census enumerators in McKeesport who was in town a day or two ago tells a story about his experience while taking the census last summer. At one of the houses he entered he asked where a certain man was living.

"Let's see," responded the woman of the house thoughtfully. "He lives in the fourteenth—fifteenth—no, the eighteenth house this side of the railroad tracks."

"Funny thing happened down at the Hotel Henry in Pittsburg the other day," said a traveling man in Charleroi last evening. "I was in the office talking to the clerk, when a woman—a guest of the house—telephoned down that she wanted what the clerk understood to be four porters. As some of this strong arm help was off duty the clerk had to rustle around before he found the required number, but he finally marshalled them, four husky negroes, and sent them up, thinking that the woman wanted to move a piano or some of the furniture.

"A few minutes latter and the quartet appeared before the desk grinning.

"'She done want no po'tahs, boss,' said the leader She wants foh quahtahs foh a dollah bill, so's she can give the chambahmaid a tip.'"

TEMPERANCE TALK BY NOTED LECTURER

Prof. Patton Gives Reasons Why Liquor Traffic Should Cease

The attendance at Prof. H. D. Patton's address last night was not large but all were treated to a new line of thought in reform. The speaker dwelt on the philosophy of reform in general, showing that the prohibition movement is sweeping on—that its results will be as deep as the wants of the human soul and its sweep as wide as the nation, its continuity as lasting as generations unborn. The address was wholly different from the usual temperance address

OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines." —Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases.

HOW TO AVOID SHOES THAT HURT

The Wonderful ease of the Red Cross Shoe

Shoe Manufacturers everywhere trying to get the effect

This Spring, you won't have to buy shoes that will require weeks of "breaking in."

You won't have to risk shoes that may never be comfortable.

J. J. Beerens of Charleroi has explained to us why the Red Cross Shoe has solved this problem for so many women and why you can have your shoe fashionable and yet absolutely comfortable the first time you wear them.

First of all, know why shoes hurt.

95 out of every 100 cases can be traced directly to stiff soles.

If you could look inside of your shoe with your foot in it, you would see why.

Your foot bends, but the sole of your shoe bends scarcely at all.

At every step you take, the ball of your foot, bearing the entire weight of your body, rubs against this stiff sole. This is what makes hard, callous places, is what causes smarting, burning feet.

IMITATIONS.

No patent device, no inner sole of any kind put inside of your shoe, can remove the cause of your suffering.

Its restful feeling is a delight after the aching and smarting that stiff soles cause.

Women are learning to avoid "make shifts" and are demanding the genuine Red Cross Shoe.

Especially since in the Red Cross Shoe, Mr. Beerens is able to secure such attractive models in such a wide range of styles.

You will find they are interesting display—all of the new Spring Styles are on exhibit now.

TOM THUMB HAS GREAT WEDDING

Fashionable Event Depicted in Pantomine by Little Tots

Successful in every detail was the first presentation of "Tom Thumb's Wedding" at School Hall last night under the auspices of the Ladies Aid Society of the First Presbyterian church. The wedding was a beautiful pantomine acted by little chaps and lassies of ages ranging from 4 years to 6 years. Everything was carried out in the most perfect and harmonious order, from the arranging of the guests by the ushers to the ceremony preformed by the minister. Musical numbers were furnished in addition to the wedding program by Mrs. I. T. Daniel, Charles. W. att and Mrs. Wyatt gave a reading. Jenkins' orchestra rendered overtures and played the wedding march while the wedding party filed on the stage.

The bride and groom of the ocasion were Elizabeth Rickey and Edwin McKay, while the officiating clergyman was Robert Ryland. The little tots went through the ceremony with a gravity that was most impressive. Tonight the performance will be repeated and a wedding breakfast will be served the company on the stage.

THREE PERSONS DROWNED WHEN TOWBOAT OVERTURNS

Henry A. Laughlin Lifted From Water by Wind

ONE BODY IS RECOVERED

Still Searching for Fireman and Chambermaid Who Lost Their Lives

Caught in the terrific windstorm which raged last night at about 11:30 o'clock, the towing steamer Henry A. Laughlin, of the Jones and Laughlin fleet, with a tow of empty barges, capsized in the river at Allenport and two women and a fireman were drowned Others of the crew of 14 including the captain, Thomas Cocain of North Charleroi, had narrow escapes, and would have been drowned had it not been for the timely arrival and heroic work of the steamers Braddock and Twilight which were nearby when the accident happened. One body, that of Effie Hughes, has been recovered. Those who were drowned were:

Effie Hughes, aged 45 of Wyona, W. Va.; employed on boat as a cook.

Katherine Lawrence, aged 32 of Hazelwood; employed on boat as chambermaid.

Raymood McFadden, of Hazelwood, about 26 years old, a fireman.

The Henry A Laughlin had been working in the vicinity of Pool No. 4, near the Vesta mines of the Jones and Laughlin company, all day yesterday. Last evening it was on its way to the mines when the accident occurred

The Henry A. Laughlin passed through Lock No. 4 at 9:45, and the crew waved at the watchman She was going at a rapid rate in the middle of the river at 11.30, when suddenly a terrific gust of wind lifted the boat about ten feet from the water's surface, then turned her completely around. She settled down in the water, her smokestacks embedded in the sandy bottom of the river.

Members of the crew swam for their lives or else clung to barrels and pieces of timber floating about, while the crew of the Braddock and the Twilight hastened to the rescue. Captain Cocain and the mate caught hold of a barrel and floated to the wheel of the wrecked steamer where they hung on until aid came.

The body of Miss Hughes was found this morning at about 9 o'clock. Search for the bodies of the other two continues unabated.

Many of the crew from the vicinity of Charleroi. Among those who live near here are George Jacoos and William Gebo of North Charleroi and Joseph Robins of Elizabeth.

Will Dispose of School Building

Frame Structure at North Charleroi to be Sold at Auction

Saturday afternoon disposition of the present North Charleroi frame school building will be made at public auction, as one of the first moves to get the premises ready for work to begin on the construction of the new eight-room school building immediately after the close of school

The purchaser of the structure will be given ten days following the close of the school term to have the building moved, and immediately thereafter the contractors will begin work.

School will close on April 25, North Charleroi having only an eight months' term. On April 24 the contract for building will be warded. Bids were advertised for some time ago, and already it is stated there has been a hearty response on the part of contractors and builders. It is expected that there will be fully a dozen bids entered.

IMPORTANT SCHOOL YEAR

School Board Will Hold Election of Superintendent

This will be an important school year for Charleroi as during this period will occur the election of a superintendent of schools. The school board last evening held a meeting and the secretary was instructed to issue the legal notice of election to be held the first Thursday in May.

The first superintendent of the Charleroi schools was Prof. W. D. Wright, who was elected three years ago. After one term in the office he resigned to go west, and Prof. J. G. Pentz, the present incumbent, was elected. This year's election of a superintendent will be the second in the history of the schools.

President J. M. Hill was in the chair last night and members of the board present were Ira L. Nickeson, George B. Nealon, Charles Wallgren and Dr T. M. Paddis. D H Glunt was absent.

A number of bills were ordered paid and reports were accepted. Superintendent J. G. Pentz made a report of the condition of the schools for the seventh month which closed March 29. The enrollment is 2,066. During the month 2,560 visits were made to the schools.

The president and secretary were authorized to sign the application of Miss Maybelle King for a permanent certificate.

It was decided upon motion that all pupils up to the seventh and eighth grades be required to leave the various buildings not later in the evening that 4 o'clock Some annoyance has been caused by the children playing around the premises

Miss Rosetta Rodgers was elected teacher of room No 3 of the Fifth street building.

BUSINESS MEN'S MEETING

Any promoter of a stock concern who comes to town and attempts to sell stock of any kind of enterprises will have to have good backing and be able to prove it hereafter, if he expects to do business here. Last night at the meeting of the Charleroi Business Men's Association a committee consisting of R. H. Rush, E. W. Hastings and George S. Might was appointed as an "investigating committee," whose duty it will be to investigate all such concerns and stop all confidence games.

F. P. Sloan reported that progress was being made by the committee to secure rights of ways for trolley line connecting Charleroi and Bentleyville. A letter was read from Hugh E Fergus, Esq, of the free bridge committee reporting some progress. Both committees were continued.

There was a good turnout at the meeting and one new member was received. Following the business session a Dutch lunch was served by the social committee and Walter Byerly was toastmaster. Several good talks were made.

MISSIONARY TALKS GIVEN

Washington Avenue Society Holds Interesting Meeting

The Ladies Missionary society of the Washington Avenue Presbyterian church held their meeting in the church yesterday afternoon. The meeting was attended by about 40 of the ladies, and was one of the most instructive and enjoyable affairs of the season. The whole program as carried out was emblematic of Easter time. The church was beautifully decorated with Easter flowers. Mrs. I. L. Nickeson led the devotional exercise, taking for her subject, "The Risen Christ." Her talk was very impressive.

After singing an Easter hymn, the leader, Mrs F. C. Stahlman, and her assistants, Mrs. N. W. Patton and Mrs. S. L. Woodward taking as their subject, "General Information," preceded to explain to the society the work of the different board of the missionary society of the Presbyterian church. Mrs. Stahlman's talk was illustrated by maps and drawings

Mrs. Ritenour of Uniontown, the State President of the W. C. T. U, was present and made quite a lengthy address in the interest of that society, after which the hostesses, Mrs. H. F. Lowsttuter, Mrs. J. W. Manon and Mrs. Chas. Culler served a dainty lunch consisting of coffee, ice cream and cake, representing a nest containing Easter eggs over which was perched a tiny chicken. Every one went home feeling they had spent a profitable and an enjoyable afternoon.

ULTIMATUM ON MONDAY

Brewery Workers Return to Duties for Time Being

Brewery workers employed at seven breweries of this vicinity are back at work this morning after being on strike two days, and will remain on duty until Monday at least subject to a decision to be reached then by Pittsburg officials. A meeting was held yesterday afternoon by the members of the local here, and action was taken that they return to work.

Breweries affected by the temporary strike were the Charleroi, the Moose at Roscoe, the Monessen, the Donora, the Acme at Bentleyville, the Roth and the Globe at Monongahela. It is thought that a compromise can be effected between the workers and employers.

RIGID DOG QUARANTINE WILL BE ESTABLISHED

Charleroi Within Boundary Set by Monessen People

STATE OFFICIALS TO AID

Will Either Send Man Here or Direct Work From Department Headquarters

It is probable that the State Board of Health will shortly establish a strict quarantine on dogs in this entire region as a result of a serious outbreak of rabies at Monessen, which has already resulted in the death of one boy. The State Health Department has asked for a boundary where it is desired to establish a quarantine and this boundary has been set by the board of health and council of Monessen to include territory north to the Turkey Hollow road, south to and including Belle Vernon, North Belle Vernon, Pricedale, Charleroi and North Charleroi.

Monday of this week a meeting of the Monessen board of helth, council and other organizations of the town was held and all discussed the matter. On the Saturday previous a boy had died indirectly as the result of being bit by a mad dog, and there are a number of persons taking the Pasteur treatment at Pittsburg for rabies.

It is said that a dog which had been bitten several days ago was brought to Charleroi by the owner to escape from the Monessen officers, and that is why Charleroi is included in the territory. Local authorities will be communicated with in regard to the matter.

Whether the State Department of Health will send a man here to institute the quarantine or issue directions from their department at Harrisburg is not known. The Monessen board of health this morning telegraphed the boundary lines which they thought it would be wise to include.

Wire and Nail Plants in Several Towns to be Put in Operation

Orders have been issued to place the wire and nail mills in Donora, Braddock, Rankin, Monessen and Aliquippa on full turn and it is stated the plants will start under the new order next week. The plants have not been running steadily during the past several months, and thousand of men have been out of employment by reason of the partials suspension. These will all be put back in steady employment.

THREATENS GUN PLAY

Baby is Innocent Cause of Much Family Trouble

Frank Saintenoy, a Frenchman, will have to answer in court to the charge of felonious assault and battery, as a result of an affair in which he participated at the home of his brother-in-law, August Consteuns, at Eighth street and Crest avenue yesterday.

Saintenoy has been sick for some time. He has been taking treatment under a Pittsburg physician and was staying at the home of his brother-in-law while his wife and little baby, it is said, were living at their home on Lincoln avenue. It seems that the Consteuns adopted the baby and that Saintenoy wasn't satisfied. Yesterday he came home from Pittsburg and stopped at his house on Lincoln avenue, then went to the home of his brother in law and demanded that the child, which is about a year old, be returned to him. His request was refused Enraged by immediate developments, Saintenoy pulled a gun and said somebody was going to die, or he was going to have the baby. He pulled the trigger four times, but for some reason the gun didn't shoot, whereupon, it is stated, he started beating Consteuns over the head with it, then turned upon Mrs. Consteuns. The commotion caused the arrival of passersby and Saintenoy was held until the arrival of Chief of Police C. W. Albright and Patrolman McEldowney.

Last night the Consteuns made information against Saintenoy before Justice of the Peace John Jenkins, and at a hearing he was held for court, which is not yet furnished, being set at $2,000.

The Dangerous Dog

The proposition to include Charleroi and this community in a quarantine against the possible ravages of mad dogs should be considered at once by the borough officials. With one death atMonessen from the effects of rabies, several other patients taking the Pasteur treatment, and forty or fifty dogs that have been bitten by another dog known to be affected with rabies, it is high time that the officials took drastic action to protect the community. This is particularly urgent, in view of the fact that one of the dogs bitten at Monessen is said to have been taken to Charleroi to protect it from the officials.

In pioneer times a flock of fifty wolves roaming at large in Rostraver township across the river would have aroused the whole western end of the State to action. Today fifty dogs likely to become affected with rabies are a thousand times more menacing. Practially thirty thousand people on both sides of the river are exposed to the danger with the possibility of a swift and horrible death. Charleroi officials and people should co-operate promptly and at once with the State officials in quarantining all the dogs in the community. Indifference in this respect is criminal carelessness of the first degree.

PICKED UP IN PASSING

One of the census enumerators in McKeesport who was in town a day or two ago tells a story about his experience while taking the census last summer. At one of the houses he entered he asked where a certain man was living.

"Let's see," responded the woman of the house thoughtfully. "He lives in the fourteenth—fifteenth—no, the eighteenth house this side of the railroad tracks."

"Funny thing happened down at the Hotel Henry in Pittsburg the other day," said a traveling man in Charleroi last evening. "I was in the office talking to the clerk, when a woman—a guest of the house—telephoned down that she wanted what the clerk understood to be four porters. As some of this strong-arm—help was off duty the clerk had to rustle around before he found the required number, but he finally marshalled them, four husky negroes, and sent them up, thinking that the woman wanted to move a piano or some of the furniture.

"A few minutes latter and the quartet appeared before the desk grinning.

"'She done want no po'tahs, boss,' said the leader She wants foh quahtahs foh a dollah bill, so's she can give the chambahmaid a tip.'"

TEMPERANCE TALK BY NOTED LECTURER

Prof. Patton Gives Reasons Why Liquor Traffic Should Cease

The attendance at Prof. H. D. Patton's address last night was not large but all were treated to a new line of thought in reform. The speaker dwelt on the philosophy of reform in general, showing that the prohibition movement is sweeping on—that its results will be as deep as the wants of the human soul and its sweep as wide as the nation, its continuity as lasting as generations unborn. The address was wholly different from the usual temperance address

Tonight in the Christian church Prof. Patton's address promises to be along a new line of thought. Its subject will be "The Concretness of the Ballot." It will begin at 7:45 p. m.

OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for those if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines." —Mrs. J. G. Johnson, Scottville, Mich., R.F.D. 3.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases.

HOW TO AVOID SHOES THAT HURT

The Wonderful ease of the Red Cross Shoe

Shoe Manufacturers everywhere trying to get the effect

This Spring, you won't have to buy shoes that will require weeks of "breaking in."

You won't have to risk shoes that may never be comfortable.

J. J. Beerens of Charleroi has explained to us why the Red Cross Shoe has solved this problem for so many women and why you can have your shoe fashionable and yet absolutely comfortable the first time you wear them.

First of all, know why shoes hurt.

95 out of every 100 cases can be traced directly to stiff soles.

If you could look inside of your shoe with your foot in it, you would see why.

Your foot bends, but the sole of your shoe bends scarcely at all.

At every step you take, the ball of your foot, bearing the entire weight of your body, rubs against this stiff sole. This is what makes hard, callous places, is what causes smarting, burning feet.

IMITATIONS.

No patent device, no inner sole of any kind put inside of your shoe, can remove the cause of your suffering.

Cushion soles make the feet prespire; this leaves them tender and sensitive without bringing relief.

The sole of the Red Cross Shoe is tanned by a special process. This preserves all the natural life and elasticity of the leather.

It bends with your foot, follows its every movement, as a glove moves with your hand.

Until you walk in it, you can not realize how easy and comfortable the Red Cross Shoe really is.

Its restful feeling is a delight after the aching and smarting that stiff soles cause.

Women are learning to avoid "make shifts" and are demanding the genuine Red Cross Shoe.

Especially since in the Red Cross Shoe, Mr. Beerens is able to secure such attractive models in such a wide range of styles.

You will find they are interesting display—all of the new Spring Styles are on exhibit now.

CHARTER NOTICE

Notice is hereby given that an application will be made to the Court of Common Pleas of Washington County, Pennsylvania, at 10:00 o'clock A. M. on Monday, the 17th day of April, 1911, by James J. Hott, Kerfoot W. Daly and Walter [illegible] under the act of Assembly entitled "An act to provide for the incorporation and regulation of certain corporations," approved April 29, 1874, and the supplements thereto, for the charter of an intended coporation to be called MONONGAHELA VALLEY AUTOMOBILE CLUB, the character and object of which is "promotion of the interests of automobile owners, drivers, manufactures and dealers," and for these purposes to have, possess and enjoy all the rights, benefits and privileges of said act of Assembly and the supplements thereto. A copy of said application is on file in the office of the Prothonotary of said Court.

DAVID M. McCLOSKEY,

Ancient Spectacle Makers.

The ancient Guild of Spectacle Makers is numerically one of the strongest London companies. Its charter dates from the year 1629 and, though the exact date of its origin is lost, there is ample evidence that the calling of spectacle maker was extensively followed at a very early date. An old book of 1563 mentions the spectacle makers among other traders, and the biography of Carlo Zeno, an illustrious Venetian, who died in 1418, mentions that even at the age of eighty-four he needed no artificial aids to his sight. So presumably spectacles were common in Italy five centuries ago.—London Telegraph.

A Venetian Fashion.

Fashions were no less eccentric four centuries ago than they are today. "Before the streets of Venice were paved (in the thirteenth century)," says Mr. William Boulting in "Woman in Italy," "ladies went though the mud and filth on pattens. The custom was retained, and, in spite of sumptuary laws the patten became heightened until women of rank stood on false feet half a yard high in the sixteenth century. They were unable to walk without the support of one or two gentlemen or servants."

A curiosity in banquets is mentioned by the same writer. It was a wedding feast at Milan and consisted of fifteen courses, "each being introduced by living specimens of the animals that composed it."

The English Complexion

The complexions of the English have often been exploited for our benefit. The damp climate and the exercise out of doors produce the red, they say. But on examination it proves to be not the red of the rose, but the red of raw beef, and often streaky and fibrous at that. The features are large and the face high colored, but it is not a *delicate pink*. It is a *coarse red*. At a distance the effect is charming, bright, refreshing, but close to often rather unpleasant. Here the features of the women, even the features of the beautiful women, are molded, while the features of our beautiful American women are chiseled.—Scribner's.

Japan's National Beverage.

Sake is the national beverage of Japan. It has a peculiar flavor not comparable to any European drink, is made from fermented rice by an intricate process in winter time and contains from 11 to 14 per cent of alcohol. It is a necessary constituent of every ceremonial Japanese dinner, is served in little, ampulla-like jars and drunk with much formality from squat, e less sake cups containing approxima ly about two ounces. To the Europe palate it tastes sour at first, but preference for it is readily acquire Curiously enough, it has a much mor powerful effect on the Japanese tha on Europeans. A stronger variety, shochu, contains from 20 to 50 per cent of alcohol. Another form, mirin, is more or less a liqueur.—London Lancet.

The Dangerous Dog

The proposition to include Charleroi and this community in a quarantine against the possible ravages of mad dogs should be considered at once by the borough officials. With one death atMonessen from the effects of rabies, several other patients taking the Pasteur treatment, and forty or fifty dogs that have been bitten by another dog known to be affected with rabies, it is high time that the officials took drastic action to protect the community. This is particularly urgent, in view of the fact that one of the dogs bitten at Monessen is said to have been taken to Charleroi to protect it from the officials.

In pioneer times a flock of fifty wolves roaming at large in Rostraver township across the river would have aroused the whole western end of the State to action Today fifty dogs likely to become affected with rabies are a thousand times more menacing. Practically thirty thousand people on both sides of the river are exposed to the danger with the possibility of a swift and horrible death Charleroi officials and people should co-operate promptly and at once with the State officials in quarantining all the dogs in the community. Indifference in this respect is criminal carelessness of the first degree.

PICKED UP IN PASSING

One of the census enumerators in McKeesport who was in town a day or two ago tells a story about his experience while taking the census last summer. At one of the houses he entered he asked where a certain man was living.

"Let's see," responded the woman of the house thoughtfully. "He lives in the fourteenth—fifteenth—no, the eighteenth house this side of the railroad tracks."

"Funny thing happened down at the Hotel Henry in Pittsburg the other day," said a traveling man in Charleroi last evening. "I was in the office talking to the clerk, when a woman—a guest of the house—telephoned down that she wanted what the clerk understood to be four porters. As some of this strong arm help was off duty the clerk had to rustle around before he found the required number, but he finally marshalled them, four husky negroes, and sent them up, thinking that the woman wanted to move a piano or some of the furniture

"A few minutes latter and the quartet appeared before the desk grinning.

"'She done want no po'tahs, boss,' said the leader She wants foh quahtahs foh a dollah bill, so's she can give the chambahmaid a tip.'"

TEMPERANCE TALK BY NOTED LECTURER

Prof. Patton Gives Reasons Why Liquor Traffic Should Cease

The attendance at Prof H D. Patton's address last night was not large but all were treated to a new line of thought in reform. The speaker dwelt on the philosophy of reform in general, showing that the prohibition movement is sweeping on—that its results will be as deep as the wants of the human soul and its sweep as wide as the nation, its continuity as lasting as generations unborn. The address was wholly different from the usual temperance address

Tonight in the Christian church Prof. Patton's address promises to be along a new line of thought. Its subject will be "The Concretness of the Ballot." It will begin at 7.45 p m.

The ancient Guild of Spectacle Makers is numerically one of the strongest London companies. Its charter dates from the year 1629 and, though the exact date of its origin is lost, there is ample evidence that the calling of spectacle maker was extensively followed at a very early date. An old book of 1563 mentions the spectacle makers among other traders, and the biography of Carlo Zeno, an illustrious Venetian, who died in 1418, mentions that even at the age of eighty-four he needed no artificial aids to his sight. So presumably spectacles were common in Italy five centuries ago.—London Telegraph.

A Venetian Fashion.

Fashions were no less eccentric five centuries ago than they are today. "Before the streets of Venice were paved (in the thirteenth century)," says Mr. William Boulting in "Woman in Italy," "ladies went though the mud and filth on pattens. The custom was retained, and in spite of sumptuary laws the patten became heightened until women of rank stood on false feet half a yard high in the sixteenth century. They were unable to walk without the support of one or two gentlemen or servants."

A curiosity in banquets is mentioned by the same writer. It was a wedding feast at Milan and consisted of fifteen courses, "each being introduced by living specimens of the animals that composed it."

The English Complexion

The complexions of the English have often been exploited for our benefit. The damp climate and the exercise out of doors produce the red, they say. But on examination it proves to be not the red of the rose, but the red of raw beef, and often streaky and fibrous at that. The features are large and the face high colored, but it is not a delicate pink. It is a coarse red. At a distance the effect is charming, bright, refreshing, but close to often rather unpleasant. Here the features of the women, even the features of the beautiful women, are molded, while the features of our beautiful American women are chiseled.—Scribner's.

Japan's National Beverage.

Sake is the national beverage of Japan. It has a peculiar flavor not comparable to any European drink, is made from fermented rice by an intricate process in winter time and contains from 11 to 14 per cent of alcohol. It is a necessary constituent of every ceremonial Japanese dinner, is served in little, ampulla-like jars and drunk with much formality from squat, e less sake cups containing approximately about two ounces. To the Europe palate it tastes sour at first, but preference for it is readily acquire Curiously enough, it has a much mor powerful effect on the Japanese tha on Europeans. A stronger variety, shochu, contains from 20 to 50 per cent of alcohol. Another form, mirin, is more or less a liqueuer.—London Lancet.

TOM THUMB HAS GREAT WEDDING

Fashionable Event Depicted in Pantomine by Little Tots

Successful in every detail was the first presentation of "Tom Thumb's Wedding" at School Hall last night under the auspices of the Ladies Aid Society of the First Presbyterian church. The wedding was a beautiful pantomine acted by little chaps and lassies of ages ranging from 4 years to 6 years. Everything was carried out in the most perfect and harmonious order, from the arranging of the guests by the ushers to the ceremony preformed by the minister. Musical numbers were furnished in addition to the wedding program by Mrs. I. T. Daniel, Charles W. att and Mrs. Wyatt gave a reading. Jenkins' orchestra rendered overtures and played the wedding march while the wedding party filed on the stage.

The bride and groom of the ocasion were Elizabeth Rickey and Edwin McKay, while the officiating clergyman was Robert Ryland. The little tots went through the ceremony with a gravity that was most impressive. Tonight the performance will be repeated and a wedding breakfast will be served the company on the stage.
